

*The **Namibian Uranium Institute** cordially invites you to the following Course:*

Radiation Safety Officer's Course Part I

Presenters: Dr. Gunhild von Oertzen and Dr. Detlof von Oertzen

This 6-day course is the first part of our Radiation Safety Officer Training and equivalent to the Radiation Technician Course (Assistant RSO).

The full course comprises of three parts and, upon completion, enables the participant to pursue a career in Radiation Safety. Candidates need to have completed Grade 12 with the subjects Mathematics and Physical Science.

After an introduction to ionising radiation, the course covers radiation exposure monitoring, dose calculations, contamination control, biological effects as a result of exposure to ionising radiation, instrumentation and practical radiation dosimetry.

At the end of the course a written examination will give the candidate the opportunity to apply and test the new gained knowledge.

Monday to Saturday, 8th to 13th April 2019

Training Centre at the Namibian Uranium Institute

- Costs for the course: N\$ 11 890.00 incl. VAT (minimum of 7 candidates)
- Pre-booking is essential.
- Refreshments are included.
